Items of Interest

JASPER JOHNS in *Painters Painting*

New Film

Emile de Antonio, producer and director, best-known for his political compilations, interviews many of today's important artists in his new film **Painters Painting**. The talk is casual, and the film, shot with a hand-held camera, is an important document with insightful and humorous moments. Those interviewed include De Kooning, Frankenthaler, Johns, Motherwell, Rauschenberg, Stella, Warhol, and the late Barnett Newman. Recently viewed at Hunter College. Watch for the next announced showing.

Super Print

A unique edition of John Kacere's "Opaque Black Posterior," hand-printed by a special silkscreen method, is available in super-sized 50" x 60" prints. In addition to its initial visual impact, the print is notable for its billboard-style printing, in which the four-color process, rare in fine art silkscreening, is apparent upon close inspection. Limited, signed edition of 100. O.K. Harris, 469 West Broadway (Soho).
